

REMARKS

Reconsideration of the present application is respectfully requested. The Inventor wishes to thank the Examiner for the indication that claims 6 and 11 contain patentable subject matter.

Claims 6 and 11 were indicated as being dependent upon a rejected base claim but would be allowable if rewritten in independent form to include all of the limitations of the base claim and any intervening claims. Claims 5-9 have been amended; claims 1-4, 10 and 11 have been cancelled. Further, claims 12-16 have been presented to define aspects of the present invention.

Claim 6 has been amended into an independent form. In rewriting claim 6 in independent form the Applicant's Representative found it necessary to change some of the language in the base claim and intervening claims. These language changes were deemed necessary to more clearly spell out the relationship between the claim elements. Consideration of the language changes and the rewriting of the claim in independent form is respectfully requested.

The Examiner is respectfully requested to pass the application on to a Notice of Allowability. If there are any unresolved issues the Examiner is respectfully requested to contact the undersigned by telephone.

Respectfully Submitted,
